importance. But this line being one which is important in our mind, it will be given due consideration.

SHRI SUBRAMANIAN SWAMY: Sir, have you understood his answer? I did not understand his answer... (*Interruptions*)

SHRI SURESH KALMADI: Sir, Mangalore is fast developing as a big industrial centre and a lot of petro-chemical projects, etc., are coming up there and so a lot of people from Udupi come to Managlore for work and go back every day. So we hope that the Government will accord it the highest priority. I would also like to ask the honourable Minister as to when the entire Konkan Project would be completed and, especially, what is the situation on the Maharashtra side of the Konkan Railway up to Mangalore.

SHRI SUBRAMANIAN SWAMY: Depending upon resources, that will be done!

SHRI MADHAVRAO SCINDIA: On the Maharashtra side, actually the line has been initiated from the Maharashtra side from Apta to Roha, and now we are taking the southern section first. As I said, this will be taken section by section, but there is no point in processing a railway line without keeping in mind the immediate benefits that would accrue by completing that project. As the honourable Member himself has said about Mangalore, for Udupi also it is very important to have a rail connection. Therefore now that Apta Roha has been looked after, now it is the turn of the southern end. After Mangalore—Udupi, we will consider the next section to be taken up.

MR. CHAIRMAN: Question Hour is over.
